PIRATES OF BLACK COVE

Select Your Character:

Jolie Roger

Character Background:

Jolie Rogers was sickeningly cute – but her angelic appearance belied a devilishly mischievous temperament. Kindly old aunties quickly learnt not to pinch this lassie's rosy cheeks – if they valued their fingers!

Not just a pretty face, Jolie proved an agile and capable street-fighter, disarming her opponents with a quick bit of her eyelashes before whipping out her razor-sharp knives. However, she nearly met her match when she clashed steel with Captain Blithe, an equally cold-hearted and ruthless privateer not so easily taken with a pretty face.

But fortune smiled on Jolie: only her pride was wounded, thanks to the intervention of Bondsman Billy, who clapped the Captain in irons and hauled him off to the gallows. Determined to prove herself the hapless Captain's equal, Jolie signed onto the next ship leaving the harbor. Soon enough, the name 'Jolie Rogers' was legendary – both for her beauty and her fearsome prowess as a sailor and swordsman.
